EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Zibelli on 9/29/05.
3. During the interview, applicant agreed to amend claim 17 to incorporate all the allowable subject matter of the original claim 2. The application has been amended as follows:
 - Claim 17, line 9, --with an operation state determining portion-- have been inserted after "vehicle".
 - Claim 17, line 10, --with a hydraulic pressure determining portion-- have been inserted after "determining".
4. The following is an examiner's statement of reasons for allowance:

Claims 1 and 17 have been amended to include all the indicated allowable subject matter of claim 2. Claim 16 was indicated allowable.

The prior art of record does not disclose or render obvious a motivation to provide for a hydraulic control apparatus/method for a vehicle as defined by the limitations of claims 1, 16 and 17; including an oil pump rotation control portion provided in a pump control portion which

Art Unit: 3681

controls an electric oil pump, the oil pump rotation control portion controlling a rotational state of the electric oil pump according to a change in a control status of a hydraulic circuit control portion which supplies a hydraulic pressure from the electric oil pump to an actuator of a transaxle, a hydraulic pressure determining portion determining whether a hydraulic pressure in a hydraulic circuit portion needs to be in a low or high hydraulic pressure region based on the determined operation state of the vehicle, a hydraulic circuit control portion computing a control signal to the hydraulic circuit portion based on the determined operation state of the vehicle, and the oil pump rotation control portion controlling a rotational speed of the electric oil pump based on the determination of the hydraulic pressure determining portion.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ha D. Ho whose telephone number is 571-272-7091. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Charles Marmor can be reached on 571-272-7095.
